ABOUT ME

I am a passionate Full-Stack Developer with a deep-rooted love for creating efficient and impactful digital solutions. My journey in technology is driven by a desire to solve complex real-world problems through clean code and intuitive design. I specialize in building robust management systems using modern web technologies like Laravel, PHP, and Java.

TECHNICAL SKILLS

Backend: Laravel, PHP, Java, Python, Node.js

Frontend: HTML5, CSS3, TailwindCSS, Bootstrap, JavaScript, React

Database: MySQL, PostgreSQL

Tools/Other: GitHub, Firebase, Figma

FEATURED PROJECTS

Paschimanchal Dental Home

Laravel, PHP, MySQL

Professional clinic presence with online appointment booking and a full patient management portal built with full-stack Laravel PHP.

Restaurant Management System

Laravel, PHP, MySQL

A full-stack comprehensive system for managing orders, tables, inventory, and staff with real-time analytics.

Hotel Booking System

Laravel, PHP, MySQL

Real-time reservation platform with integrated payment gateway and room management dashboard built using full-stack Laravel PHP.

Hospital Management System

Java, APG, SQL

Electronic health records and patient management with role-based secure access control built with APG Java.

EDUCATION

Bachelor's in IT - Informatics College Pokhara (Current)

Higher Secondary (+2 Science) - Pokhara Aadarsha (Completed)

School Level Certificate - Shree Jana Jyoti Secondary School (Completed)
